MATERIAL SAFETY DATA SHEET

Anchor Seal, Inc.

Section 1. Chemical Product and Company Identification

Product name/ Trade Name SY6650LE (Part B) Amine Curing Agent
Manufacturer ANCHOR SEAL, Inc
16 Riverside Avenue
Danvers, MA 01923
Date of Preparation: 10/3/09
Prepared By: Peter E. Spinney

Section 2. Composition, Information on Ingredients

<table>

Section 3. Hazards Identification

Primary Routes of Exposure:
- Skin contact
- Skin Absorption
- Eye Contact
- Inhalation
- Ingestion

Routes of Exposure
- Eyes: Contact with product may cause irritation, pain and transient edema.
- Skin: Contact with product may cause irritation, itching and discomfort.
- Inhalation: Inhalation of vapor may cause irritation to the respiratory tract with coughing and chest pain.
- Ingestion: Swallowing this material can cause gastrointestinal irritation, nausea and vomiting.

Potential Health Effects
- Effects of Chronic Overexposure: Prolonged or repeated exposure can cause sensitization resulting in itching, swelling or rashes on subsequent exposures.
- Carcinogenicity: OSHA: N/L, IARC: N/L, NTP: N/L

Section 4. First Aid Measures

Eyes: Immediately wash the eyes with large amounts of water for at least 15 minutes, occasionally lifting the lower and upper lids. Get medical attention immediately.

Skin: Immediately wash the contaminated skin with soap and water. If this chemical penetrates the clothing, immediately remove the clothing, wash the skin with soap and water, and get medical attention.

Inhalation: Immediately move the exposed person to fresh air. If breathing is difficult, properly trained personnel may administer oxygen. Get medical if symptoms persist.

Ingestion: If large quantities have been swallowed, DO NOT INDUCE VOMITING. If victim is conscious and alert, give 2 - 4 cups of lukewarm water. Get medical attention.

Section 5. Fire Fighting Measures

Extinguishing Media:
- Water
- Carbon Dioxide
- Dry Chemical
- Foam
- Alcohol Foam

Flash Point: >200°F SETA Flash
LEL: N/D  UEL: N/D

Flammability Classification OSHA/NFPA: Flash Pt. N/A  Class Liquid

Extinguishing Media: Carbon dioxide, dry chemical, foam.

Unusual Fire and Explosions Hazards: Isolate fire area and deny unnecessary entry. Fire fighters should wear positive-pressure self-contained breathing apparatus (
Section 6. Accidental Release Measures
ISOLATE AREA OF THE SPILL! Eliminate all ignition sources. Soak up small spills with inert solids such as vermiculite or other absorbent materials. Shovel into suitable disposal container. Persons not wearing protective equipment should be excluded from the area of spill until cleanup has been completed.

Section 7. Handling & Storage
Store material in a clean, cool, ventilated area away from all sources of ignition. Clean up spills at once. Keep container tightly closed when not in use. Always wear protective equipment. Wash hands and other exposed areas thoroughly after handling.
Handle mixed resin and hardener in accordance with the potential hazard of the curing agent used. Provide appropriate ventilation/respiratory protection against nuisance dust during sanding/grinding of cured product.

Section 8. Exposure Controls/Personal Exposure
Eye Protection
Avoid splashing. Wear chemical-resistant safety goggles or face shield. Contact lenses must not be worn.

Skin Protection
Chemical resistant synthetic rubber (neoprene, nitrile) gloves and other protective clothing is recommended to prevent repeated or prolonged skin contact.

Respiratory Protection
If personal exposure cannot be controlled below applicable limits by area ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in section 2.

Ventilation
General area ventilation is acceptable if the exposure is maintained below applicable exposure limits. (See Section 2) Local exhaust is recommended for confined areas. See 29 CFR 1910.146

Other Precautions
Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

Section 9. Physical and Chemical Properties
Percent Volatile Content by Volume (PBV) or Weight (PBW)
N/A

Specific Gravity (gm/cc)
0.96-0.98

VOC Content (less water) Note 1
N/A

Weight per Gallon
7.8

Boiling Point
>200C

Evaporation Rate
N/A

Vapor Pressure (mm Hg)
1 mbar at 10C (50F)

Solubility in Water
Total

Vapor Density (Air=1)
>1

Appearance and Odor
Clear liquid, ammonia odor

Section 10. Stability and Reactivity
Stability
Stable

Conditions to Avoid
Protect from heat, sparks, flame and possible sources of ignition.

Incompatibility
Avoid contact with strong acids and bases

Hazardous Decomposition Products
Fumes produced when heated to decomposition may contain Carbon dioxide, carbon monoxide, aldehydes and other hazardous gases.

Hazardous Polymerization
Mixing large quantities of resin and hardener will generate significant heat. Uncontrolled cure conditions may char and decompose the resin generating unidentified toxic fumes and vapors.
MATERIAL SAFETY DATA SHEET

Anchor Seal, Inc.  AMINE CURING AGENT

Section 11. Toxicological Information  Acute Toxicity (see Section 3. for Exposure Symptoms)

Section 12. Ecological Information

Material has not been tested for potential adverse effects to the environment.

Section 13 Disposal Considerations

RCRA: This product, if disposed as shipped, is not considered a hazardous waste as specified in 40 CFR 261. Dispose of in accordance with all applicable federal, state and local regulations.

Section 14 Transportation Information

This product if offered for shipment is regulated by US DOT 49 CFR Parts 171 - 180: Regulation of Hazardous Materials Transportation in Commerce.

Shipping Information

- Amines, Liquid, Corrosive, N.O.S. (Polyoxypolyldiamine)
- Classification: 8
- Identification: UN2735
- Packing Group: 111
- Label: Corrosive

Section 15. Regulatory Information

Regulations Governing Product:

- Inventory Status: United States (TSCA) - All ingredients are on the inventory or exempt from listing.
- SARA TITLE III
  - EPCRA 311/312 Tier II Chemical Inventory Reporting:
    - Immediate (acute)
      - Health: 3
      - Flammability: 1
      - Chemical Reactivity: 0
